

# TAKE ADVANTAGE OF CYBERINFRASTRUCTURE

## FREE! SUPERCOMPUTING TIME & RESOURCES FOR UC RESEARCHERS

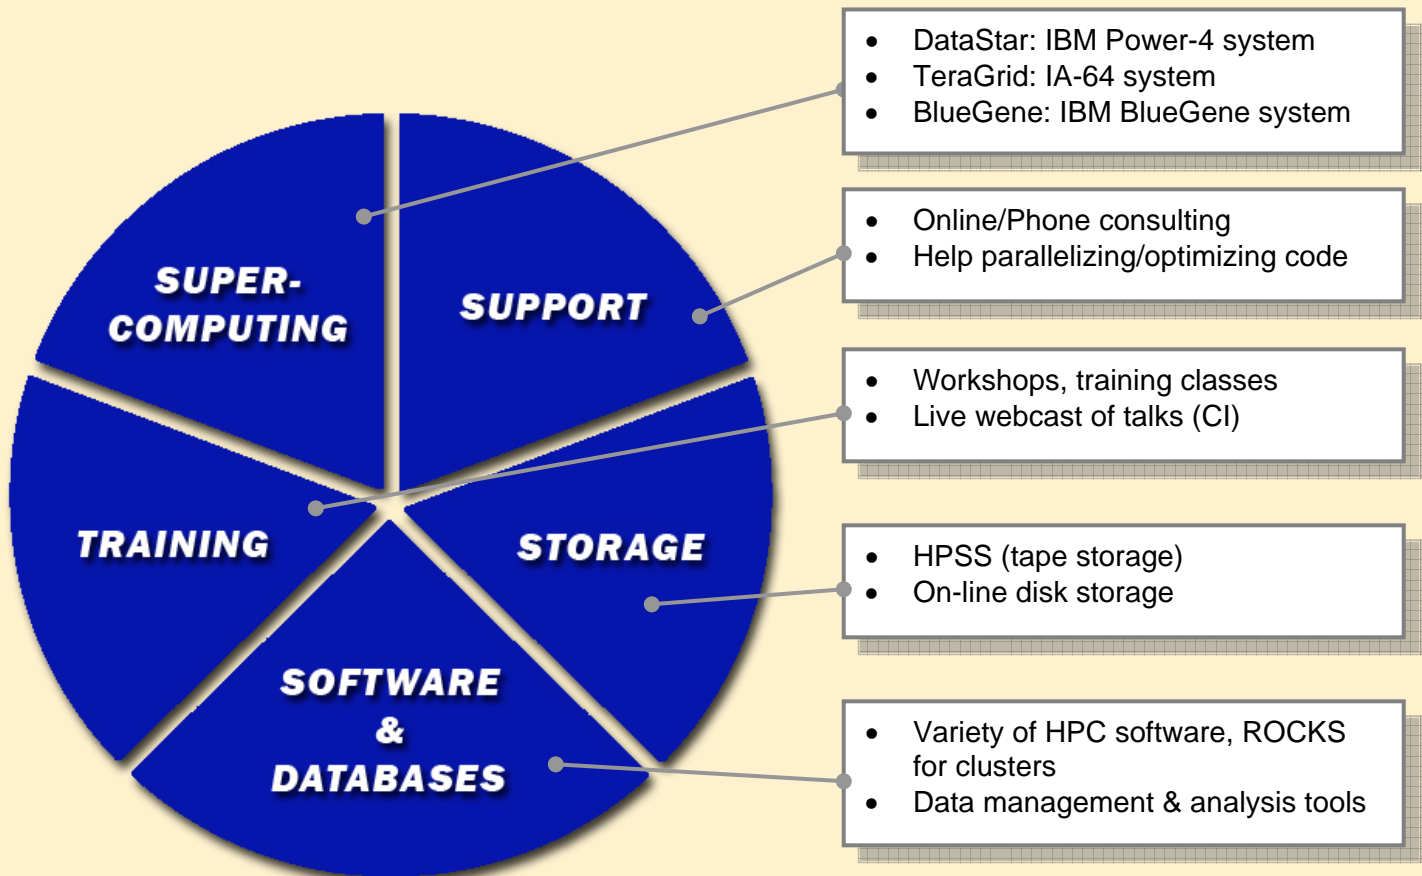

DataStar

The **Academic Associates Program** (AAP) at **University of California at San Diego (UCSD)/San Diego Supercomputer Center (SDSC)** provides access to a vast array of computational resources for all UC researchers with a need for massive computational power and larger storage/archiving space. Any qualified UC researcher can request supercomputing time, free of charge, through the AAP administrator for his or her respective campus.

### Eligible UC Campuses:

- *Berkeley*
- *Davis*
- *Irvine*
- *Los Angeles*
- *Merced*
- *Riverside*
- *San Diego*
- *Santa Barbara*
- *Santa Cruz*
- *San Francisco*

**For more information:**

**Contact:**
